1. Receipt is acknowledged of the remarks of October 15, 2003.

The prior office action of September 25, 2003 is in error since Applicant had elected the species in the prior office action of April 10, 2003 and responded to in the office action of May 14, 2003.

2. Claims 21-24 and new claims 25-30 are now pending in this application.
Claims 1–20 were previously cancelled.

3. The restriction and election requirements were proper as stated in the office action of April 10, 2003.

The restriction requirement was made Final.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a

whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 21, 23 and new claims 25-27 and 29-30 **stand** rejected under 35 U.S.C. 103(a) as being unpatentable over Radwan et al. U.S. 5,688,509.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Radwan et al teaches a method for repelling insects from items that includes textiles, see column 2, lines 61-63 employing repellant compounds that are essential oils which includes basil oil, see column 3, line 20. The reference teachings render the instant claimed inventions *prima facie* obvious to one of ordinary skilled in the art. The reference clearly teaches that larvae moth eggs are destroyed by the composition which includes where the fabric is located whether in a box or container as well as the treatment on the substrate and the amount is within the broad range, see col. 3 of reference. The reference also teaches that the compositions can be dispersed and sprayed on substrates, see column 4, line 44-49.

6. Claims 22, 24 and 28 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The reference does not suggest or motivate one of ordinary skill in the art to employ composition of the reference to employ wool muslin as the fabric. Claims 22 and 24 would be allowed based on the unexpected and unobvious data for protecting muslin wool fabric for no 2 of Table I for bay oil and palmarosa oil.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Lilling whose telephone number is (703) 308-2034 and Fax Number is for applications Before Final (703) 872-9306 and After Final for applications is 703-872-9307 or SPE Michael Wityshyn whose telephone number is (703) 308-4743. Examiner can be reached Monday-Thursday from about 5:30 A.M. to about 3:00 P.M.
